Experience

Frontend Engineer
Ziplugs. (Remote) | July 2024 – Present

- Built a fully interactive logistics platform using React, Zustand, and Mapbox GL JS with OpenStreetMap overlays for detailed Nigerian address support.
- Implemented REST API integrations for order management, driver notifications, and payment flows.
- Designed and implemented a mobile-first UI that included a collapsible sliding bottom panel, vehicle selector with fare logic, and conditional receiver fields.
- Integrated precise geolocation APIs to match customers with nearby drivers and display route previews and live tracking.
- Created state-isolated components for driver assignment, order confirmation, and map interactions reducing rerender issues and improving UX.
- Collaborated directly with product and backend teams to ensure real-time data sync, error resilience, and edge-case handling in order workflows.

Frontend Developer / WordPress Developer
Smiles Consult (Remote) | July 2023 –Jan 2024

- Developed and maintained mobile-responsive WordPress websites with WooCommerce integration.
- Customized site design and layout using Elementor and CSS for a seamless user experience.
- Used Git for version control and worked in agile sprint cycles.
- Collaborated closely with the design team to implement pixel-perfect UIs.
- Managed plugin and theme updates and resolved layout and compatibility issues.
- Implemented SEO best practices and optimized site performance across devices.

WordPress Developer / IT support
Oristech Electronics (Hybrid) | Feb 2021 – Oct 2022

- Built and customized multiple client websites using React and WordPress.
- Delivered landing pages, custom components, and WooCommerce integrations with SEO-focused UX.
- Supported e-commerce operations, including product updates, tracking pages, and user flows.

Frontend Developer Intern
Product Square (Remote) | Oct 2023 – Dec 2023

- Developed responsive interfaces with HTML, CSS, and JavaScript.
- Collaborated in Agile sprints and contributed to pixel-perfect UI implementations.
- Gained hands-on experience with Git and version control workflows.
- Ensured accessibility compliance and mobile responsiveness.
